Rethinking the Social History R esearch has established that social environments affect human health. 1 Acknowledged social determinants of health " including racial or ethnic back-

Rethinking the Social History

The U.S. social welfare structure has been shaped both by long standing traditions and by changing

economic and social conditions. In its early history, the United States was an expanding country with a vast frontier and a predominantly agricultural economy. Up to 1870, more than half the Nation's adult workers were farmers.
