Tenth grade, sophomore year, or grade 10 (called Year 11 in England and Wales) is the tenth year of school post-kindergarten or the tenth year after the first introductory year upon entering compulsory schooling. In many parts of the world, the students are 15–16 years of age, depending on when their birthday occurs. The variants of 10th grade in various nations are described below.

History. Following the Munn and Dunning reports published in 1977, the Standard Grade replaced the old O-Grade qualification, and was phased in from then onwards.. Standard Grade courses were taken over a student's third and fourth year in secondary education. Exams were taken at the end of the 4th Year (around May), with preliminary examinations taken several months earlier in November.

Research on school dropout extends from early 20th-century pioneers until now, marking trends of causes and prevention. However, specific dropout causes reported by students from several nationally representative studies have never been examined together, which, if done, could lead to a better understanding of the dropout problem. Push, pull, and falling out factors provide a framework for ...
