What is the Difference between a ODS and Staging Area

In this article, we will learn the difference between abstract class and interface in Java programming language and based on our understanding of those differences, we will try to find out some tips and guidelines to decide when it's better to use abstract class over the interface or vice-versa.

Difference Between Abstract Class vs Interface in Java

The Hausdorff distance and the (area of the) symmetric difference are both pseudo-metrics on the set of measurable geometric shapes. However, they behave quite differently. The figure at the right shows two sequences of shapes, "Red" and "Red \hat{a} Green". When the Hausdorff distance between them becomes smaller, the area of the symmetric difference between them becomes larger, and vice versa.
