Contrast is the difference in luminance or colour that makes an object (or its representation in an image or display) distinguishable. In visual perception of the real world, contrast is determined by the difference in the color and brightness of the object and other objects within the same field of view. The human visual system is more sensitive to contrast than absolute luminance; we can ...

Thornton Wilder's play The Matchmaker is a farce in the old-fashioned sense. It uses such time-honored conventions as characters hidden under tables and in closets, men disguised as women, a complex conspiracy to bring young lovers together, and a happy ending in which three couples are united with plans to marry.
