An acoustic guitar is a guitar that produces sound acoustically by transmitting the vibration of the strings to the airâ€”as opposed to relying on electronic amplification (see electric guitar). The sound waves from the strings of an acoustic guitar resonate through the guitar's body, creating sound. This typically involves the use of a sound board and a sound box to strengthen the vibrations ...

The steel-string acoustic guitar is a modern form of guitar that descends from the nylon-strung classical guitar, but is strung with steel strings for a brighter, louder sound. Like the classical guitar, it is often referred to simply as an acoustic guitar. The most common type is often called a flat top guitar, to distinguish it from the more specialized archtop guitar and other variations.
