Wikipedia articles must not contain original research. The phrase "original research" (OR) is used on Wikipedia to refer to material – such as facts, allegations, and ideas – for which no reliable, published sources exist. This includes any analysis or synthesis of published material that serves to reach or imply a conclusion not stated by the sources.

Methods for the synthesis of qualitative research: a

Original research is research that is not exclusively based on a summary, review or synthesis of earlier publications on the subject of research. This material is of a primary source character. The purpose of the original research is to produce new knowledge, rather than to present the existing knowledge in a new form (e.g., summarized or classified). ...

This article defines phonological awareness and discusses historic and contemporary research findings regarding its relation to early reading. Common misconceptions about phonological awareness are addressed. Research-based guidelines for teaching phonological awareness and phonemic awareness to all children are described. Additional instructional design guidelines are offered for teaching ...

Phonological Awareness: Instructional and Assessment

However, if you are discussing, for example, the historical context in which the episode originally aired, you should cite the full date. Because you are specifying the date of airing, you would then use WB Television Network (rather than Mutant Enemy), because it was the network (rather than the production company) that aired the episode on the date you're citing.

White Paper Series THE ENGLISH LANGUAGE IN THE DIGITAL AGE

The direct shikimate kinase-catalyzed route to the key metabolite shikimate-3-phosphate is the method of choice and superior to any other routes, which have the disadvantages of tedious multi-step synthesis, costly or commercially unavailable starting materials, use of toxic heavy metal reagents and tedious work up procedures due to side products.

Biotechnology Journal - Wiley Online Library

Zinc oxide can be called a multifunctional material thanks to its unique physical and chemical properties. The first part of this paper presents the most important methods of preparation of ZnO divided into metallurgical and chemical methods. The mechanochemical process, controlled precipitation, sol-gel method, solvothermal and hydrothermal method, method using emulsion and microemulsion ...
